The IMPACTO® TURBOTOE safety overshoe protects the toe area from accidental impact, crushing or stubbing. Recommended for use in any industry, especially construction and heavy work environments that carries a risk of toe damage or has a steel toe cap requirement.

Perfect for visitors, casual or temporary workers, management, clerical and sales people. Fits tightly over existing shoes providing a solid protecting cap. Can be comfortably worn over low-heel, dress and running shoes and most boots. The TURBOTOE is an affordable alternative to expensive footwear with built-in steel toe cap.

Made of flexible and stretchy, pliable PVC. 100% waterproof, will not harden, stiffen or crack. Treads under sole help prevent slipping.
